

Paint Warranties and Information

Warranty Information

Any surface pressure washed prior to applying paint has a 3-year warranty on paint chipping and peeling due to defective workmanship and/or material.

Any asphalt markings or stripes have a 2-year warranty on durability.

Snow plow abuse, accident or anything other than normal wear and tear is not covered.

Pressure Washed Surfaces

Yellow Curbs – Pressure washed and painted surfaces will generally last 8 to 9 years before chipping and peeling occurs, however the paint will typically start to fade after 3 to 4 years. When fading occurs just repaint to bring back the bright yellow color and get rid of black marks or just wait 8 to 9 years and pressure wash and repaint again.

Tick Marks/White Boxes – Painted tick marks and white boxes generally last 8 to 10 years. Maintenance is generally not required.

Stop Bars/Markings – Painted stop bars and markings on asphalt (stencils, stripes, etc.) generally last 3 to 4 years depending on the amount of traffic on them. Maintenance is generally not required.
